

Why Wall Street?

Since the financial crisis, big Wall Street banks like Wells Fargo and Goldman Sachs have extracted billions in windfall gains for themselves through lower taxes, looser rules, and deliberately weakened oversight of their questionable business practices. Their gains come at the expense of our communities, White, Black and Brown, through unaffordable housing, mass incarceration and over-policing, diploma mills, predatory loans, unlivable wages, and senseless job layoffs.

We are stepping up the fight to curb the big banks' influence in Washington and our economy. The important work of defending the Dodd-Frank Wall Street Reform Act must not be the end of the story. We need to do more to build a financial system that works for most Americans, not against them.

Take on Wall Street is a campaign supported by a coalition of over 50 national organizations -- including Communications Workers of America, AFL-CIO, Public Citizen, Center for Popular Democracy, Action Center on Race and the Economy, Americans for Financial Reform, Institute for Policy Studies and the Working Families Party -- organized around moving a financial reform agenda to address the predatory economic power of big banks & billionaires and build a financial system for working people. We are energizing the base through activist trainings and conducting civic engagement to make sure voters are aware of candidates' records on curbing Wall Street's influence in Washington.

Legislative Priorities

We are pushing to separate commercial banking from investment banking so there is a firewall between banks handling your savings and Wall Street traders; implement a public option for basic banking at the post office; enact a sales tax on Wall Street trades; end stock "buybacks" that enrich corporate executives at the expense of workers, the company, and the economy; eliminate the CEO bonus tax loophole for all executives; close the revolving door between Wall Street and Washington; and eliminate the 'carried interest loophole, which allows financial executives to pay lower tax rates than most salaried workers, among other pressing reforms.

- **Stop Wall Street Looting Act of 2019 (S. 2155/H.R. 3848)**
Addresses the predatory elements of the private equity business model that harm workers, investors, and communities, including closing the "carried interest" loophole.
- **Return to Prudent Banking Act of 2019 (H.R. 2176) & 21st Century Glass-Steagall Act of 2017 (H.R. 2585/S. 881)**
Ends "Too Big to Fail" by breaking up the Wall Street mega banks, and separating "boring" deposits from risky investment banking – making them smaller, simpler, and safer.
